——让输送更简单——

1280标准网带机

1280 Standard Conveyor Belt Machine

高效、稳定、静音输送

Efficient stable and silent conveying

紧凑设计 · 广泛适用 · 静音运行

Compact design, wide applicability, and silent operation

1280标准网带机是一款适用于中小型工件输送的高效输送系统，具备优异的承载能力与运行稳定性。

该机型结构紧凑，易于集成至现有生产线，适用于各类装配、检测、包装等环节。

系统采用低噪音设计，运行平稳，维护简便，可显著提升生产环境的舒适性与连续性。

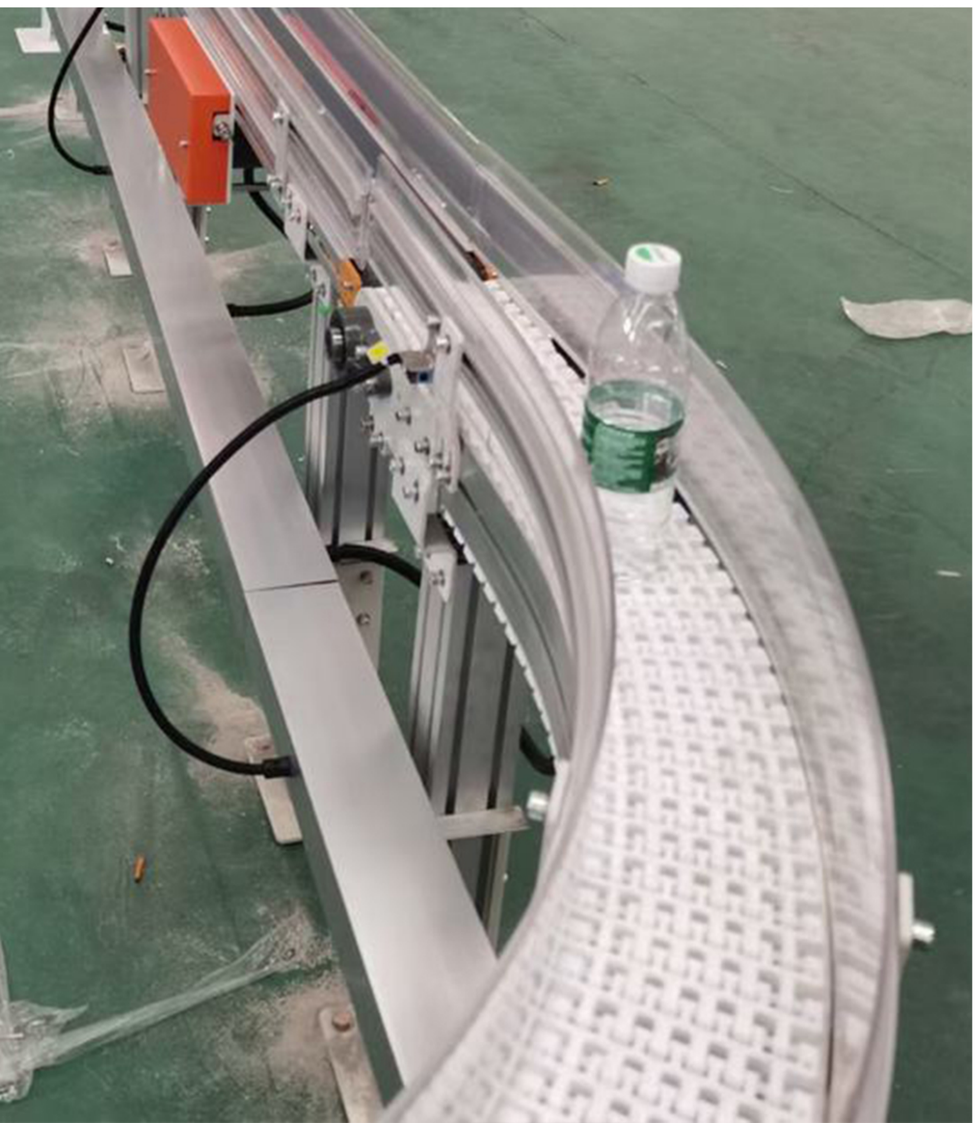

The 1280 standard mesh belt conveyor is an efficient conveying system suitable for transporting small and medium-sized workpieces, with excellent load-bearing capacity and operational stability.

This model has a compact structure and is easy to integrate into existing production lines, suitable for various assembly, testing, packaging, and other processes.

The system adopts a low-noise design, runs smoothly, is easy to maintain, and can significantly improve the comfort and continuity of the production environment.

多功能输送平台

Multi functional conveying platform

1280标准网带机适用于多种行业与产品类型，如电子元件、小型五金、塑胶件、包装盒等。

机身宽度适中，搭配可调导向装置，确保产品在输送过程中不偏移、不掉落。

模块化设计支持灵活布局，可搭配挡板、定位器、分流机构等功能模块，实现智能化流程控制。

系统支持调速运行，并可选配感应器、编码器等智能控制单元，实现精准停靠与节拍控制。

The 1280 standard mesh belt machine is suitable for various industries and product types, such as electronic components, small hardware, plastic parts, packaging boxes, etc.

The body width is moderate and equipped with adjustable guiding devices to ensure that the product does not deviate or fall off during transportation.

Modular design supports flexible layout and can be paired with functional modules such as baffles, locators, and diversion mechanisms to achieve intelligent process control.

The system supports speed regulation operation and can be equipped with intelligent control units such as sensors and encoders to achieve precise parking and rhythm control.

优势亮点

Advantages and Highlights

- 低噪音设计 提升工作环境

  Low noise design enhances working environment

- 维护成本低 使用寿命长

  Low maintenance cost and long service life

- 结构紧凑 安装便捷

  Compact structure and convenient installation

- 承载能力强 运行稳定

  Strong carrying capacity and stable operation

- 模块化设计

  modular design

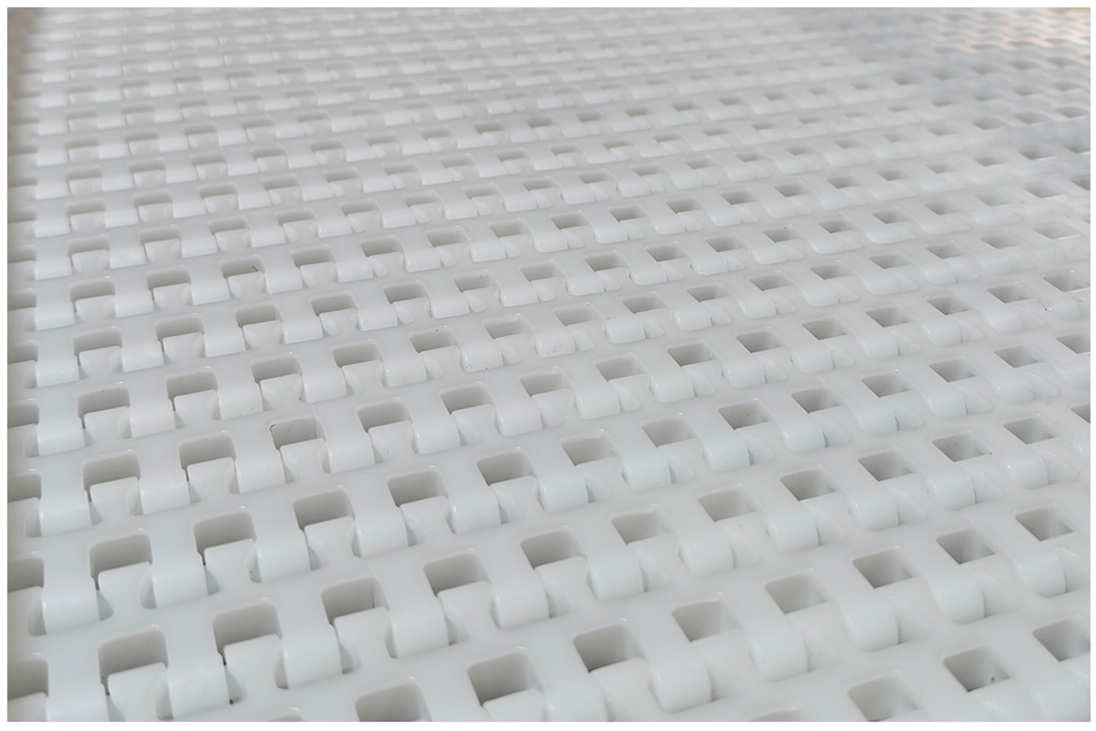

构建高效输送线

Building an efficient conveyor line

1280标准网带机采用模块化设计，支持水平、倾斜及转弯输送，布局灵活，可适应多样化的产线需求。配合简易设计工具，可快速完成输送系统的方案设计与模拟验证。

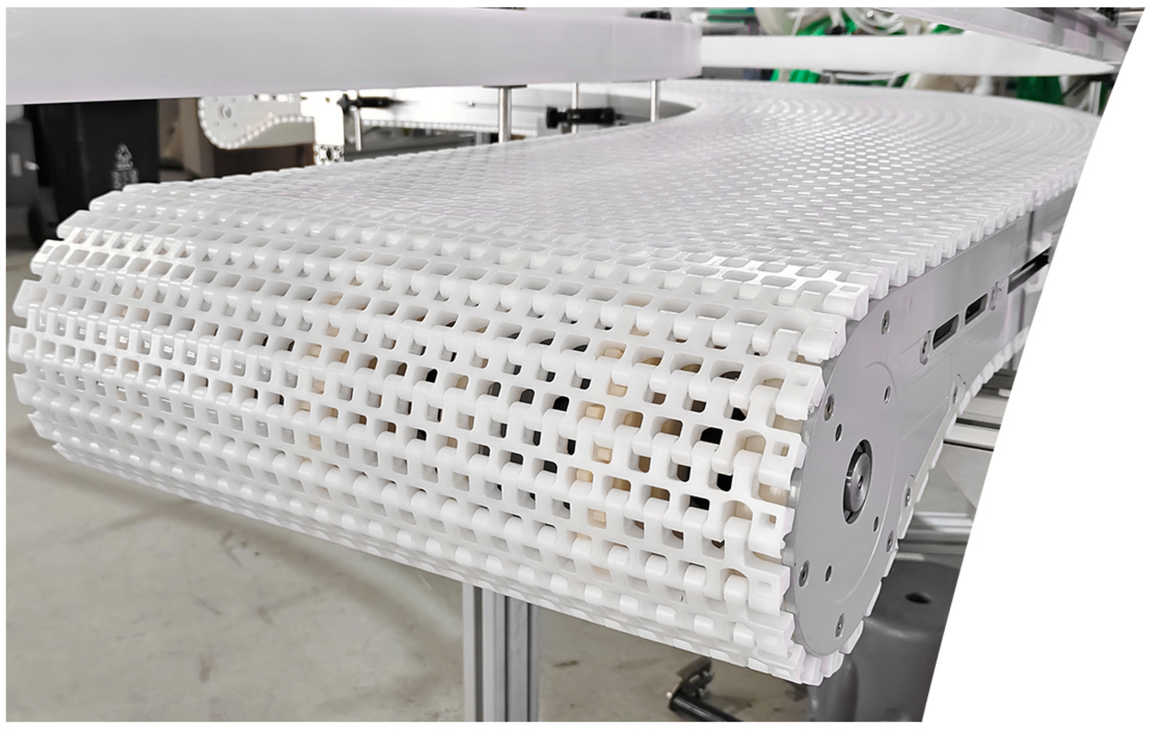

The 1280 standard mesh belt conveyor adopts a modular design, supporting horizontal, inclined, and turning conveying, with flexible layout, and can adapt to diverse production line needs.Combined with simple design tools, the scheme design and simulation verification of the conveying system can be quickly completed.

网带 mesh belt

采用高强度耐磨网带，运行平稳，不易跑偏，
适用于多种物料表面输送。

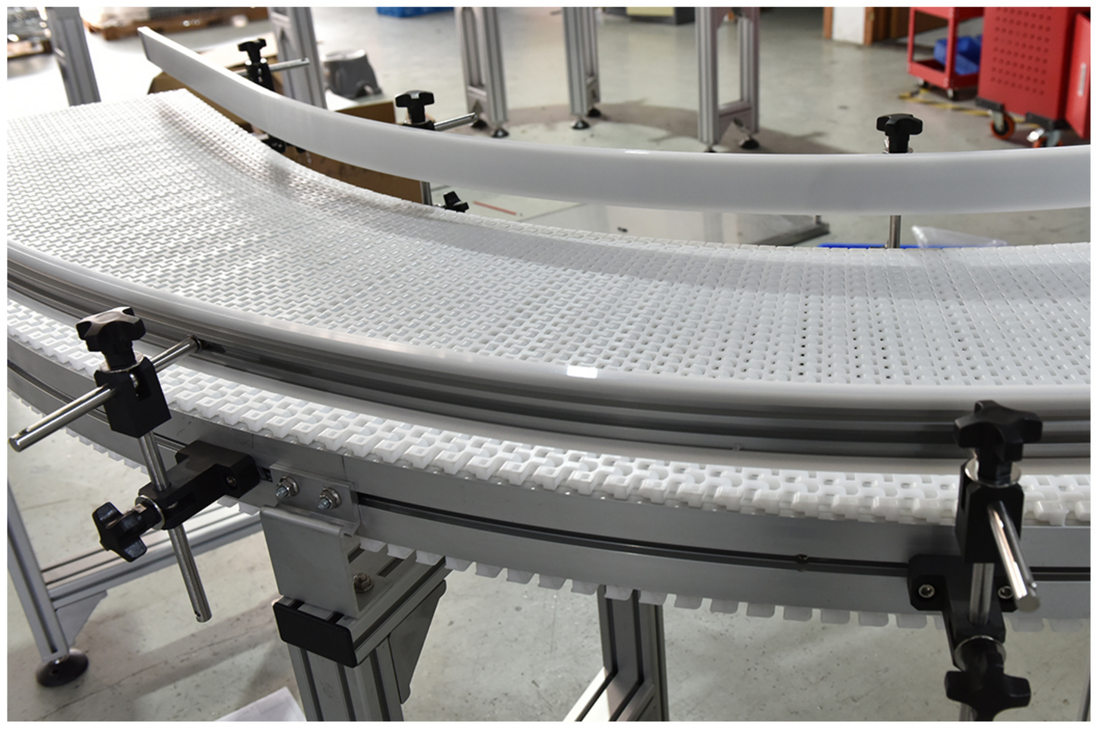

Adopting high-strength wear-resistant mesh belt, it runs smoothly and is not easy to deviate,Suitable for surface transportation of various materials.

驱动系统 drive system

配备高效电机，支持无级调速，运行平稳，
启停响应快。

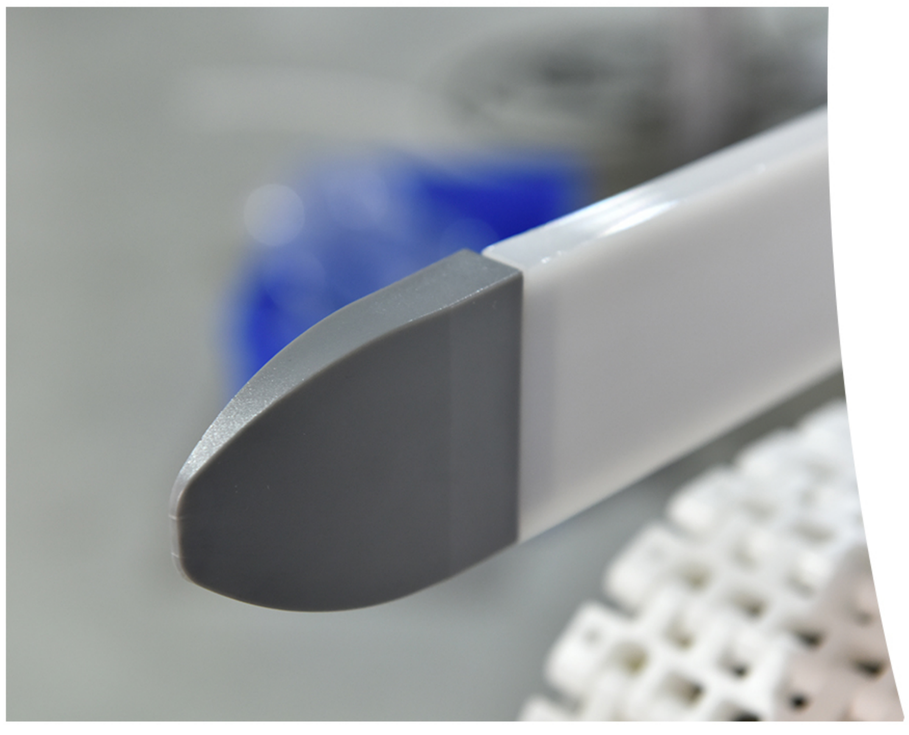

Equipped with efficient motor, supporting stepless speed regulation, running smoothly,Quick start stop response.

导向与保护 Guidance and Protection

可配置侧向导轨、挡边条等，确保产品在高速运行
中不脱落、不碰撞。

Can be configured with lateral guide rails, edge bars, etc. to ensure that the product runs at high speeds
No detachment or collision.

功能模块 functional module

支持加装阻挡器、分流装置、定位机构等，
实现分段控制与流程优化。

Support the installation of barriers, diversion devices, positioning mechanisms, etc,Implement segmented control and process optimization.

模块化设计 · 可靠耐用

Intelligent control optional

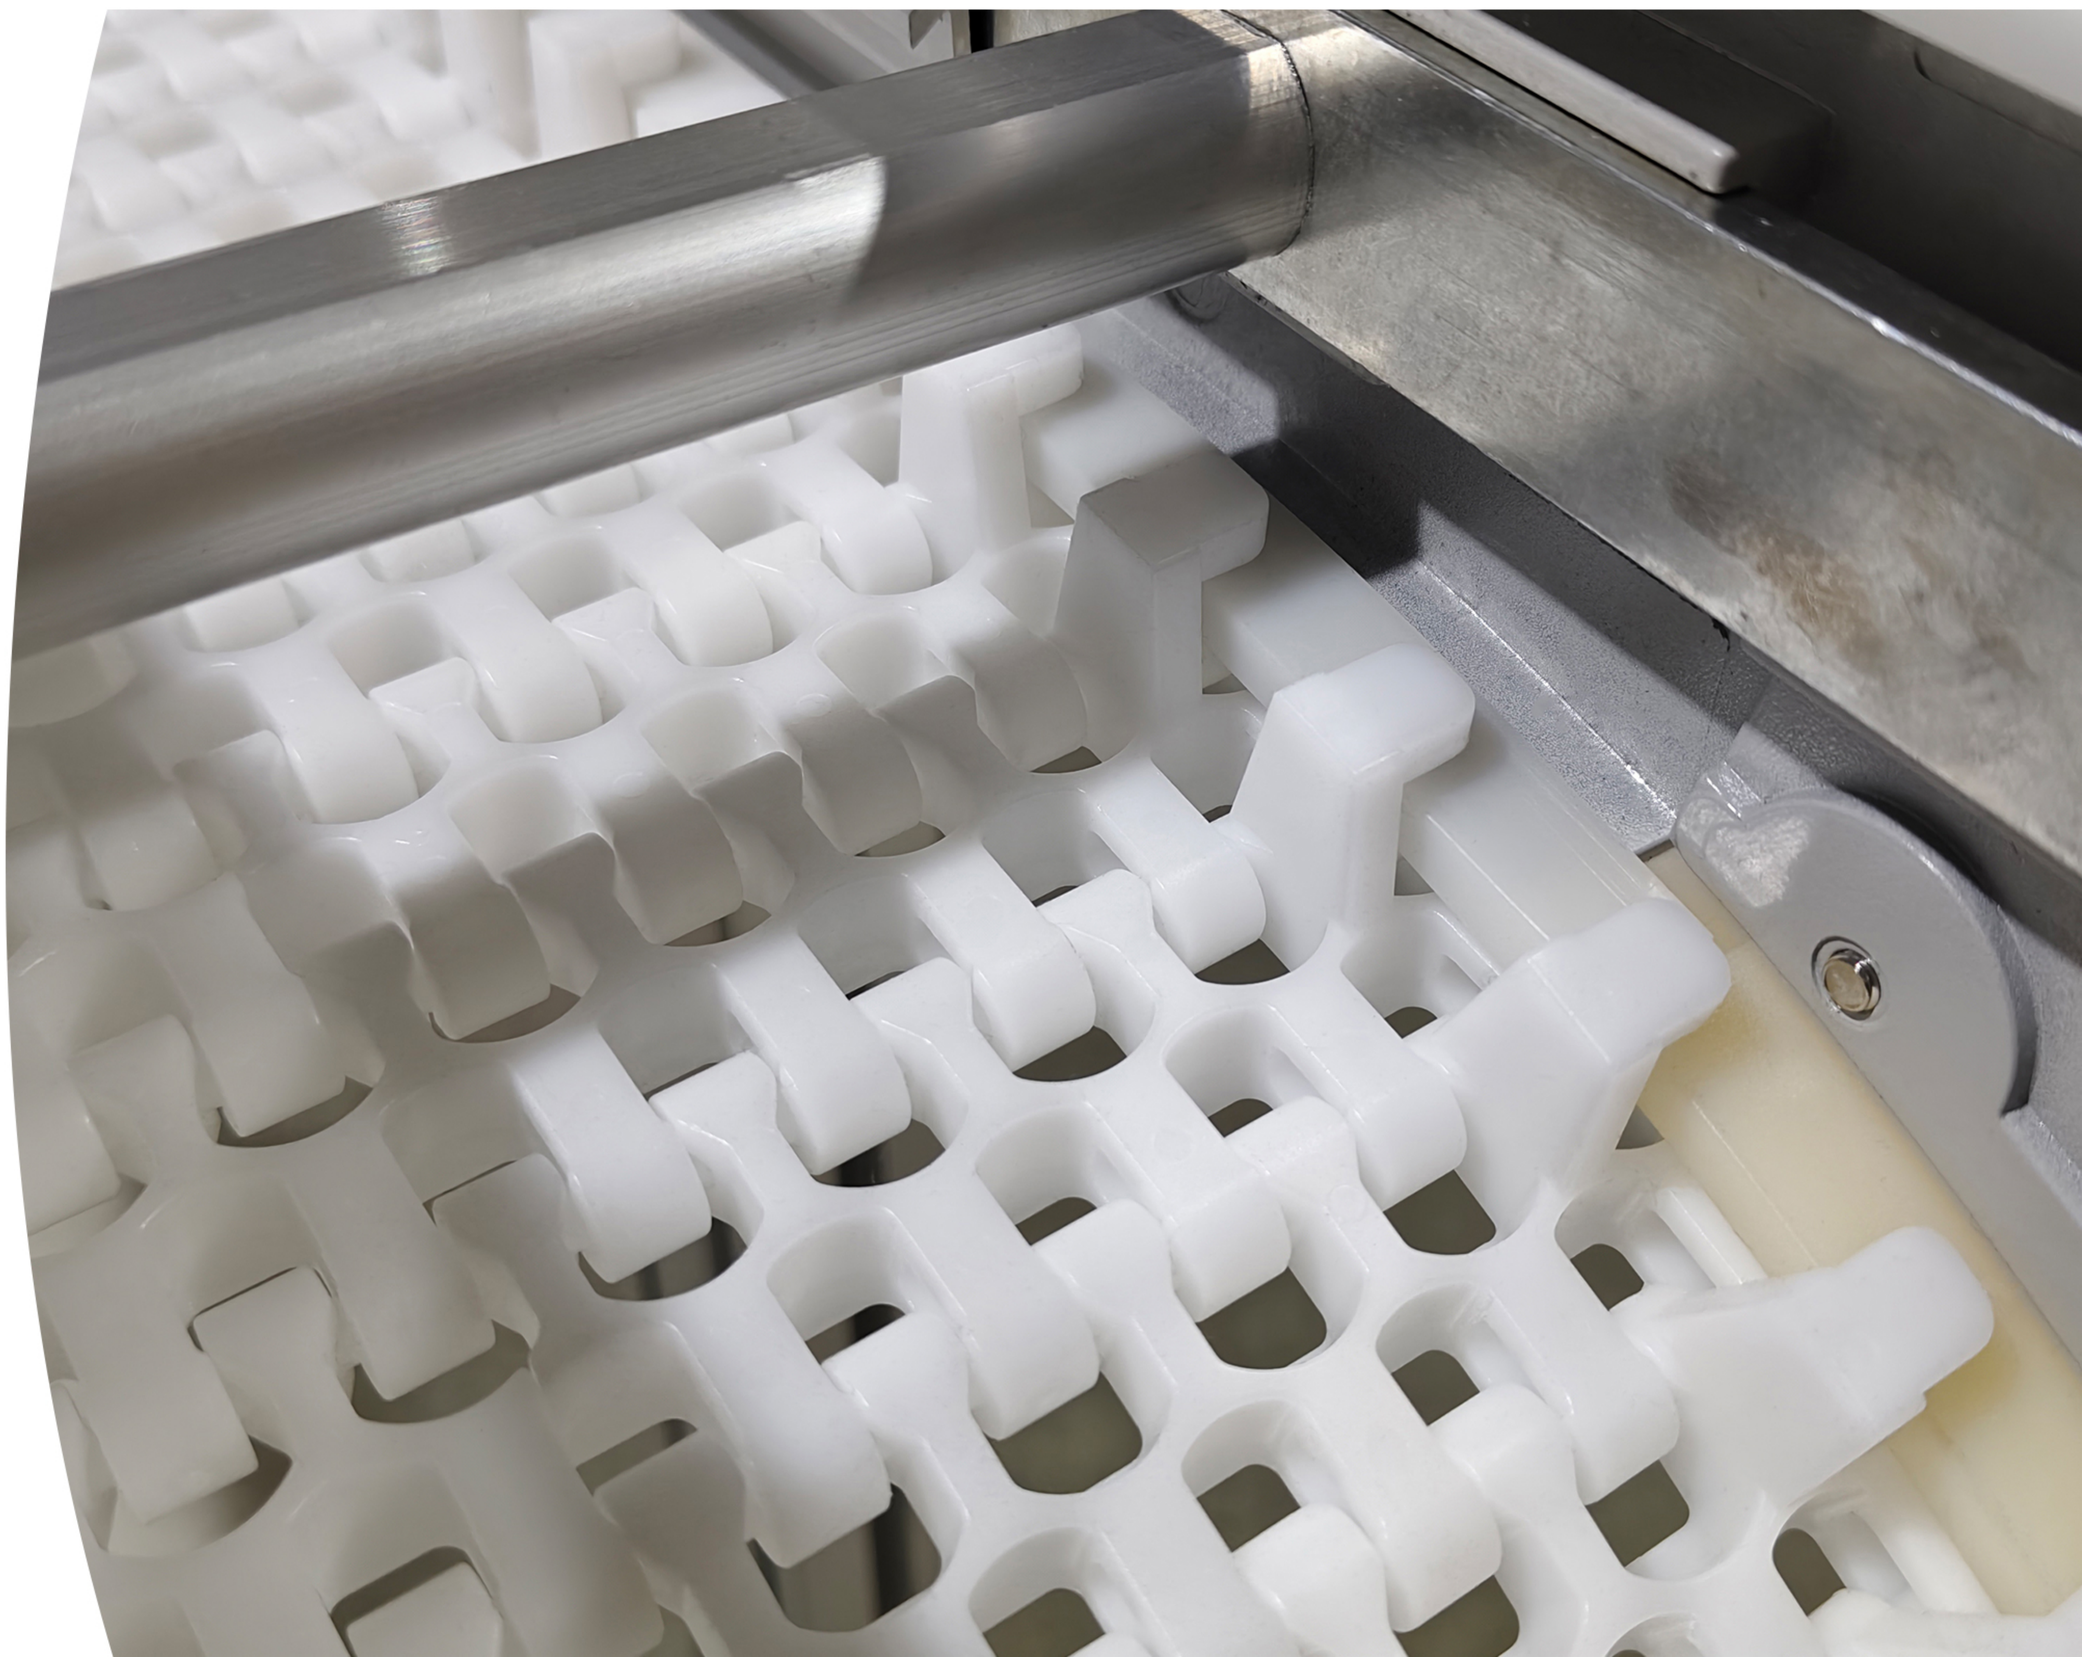

1280标准网带机采用模块化结构设计，组件标准化程度高，安装简便快捷，支持快速布局调整与扩展。系统结构稳固，运行平稳，适用于多种工业环境。

The 1280 standard conveyor system features a modular design with highly standardized components, enabling simple and quick installation. It supports rapid layout adjustments and expansion. The system boasts a stable structure and smooth operation, making it suitable for various industrial environments.

优势

advantage

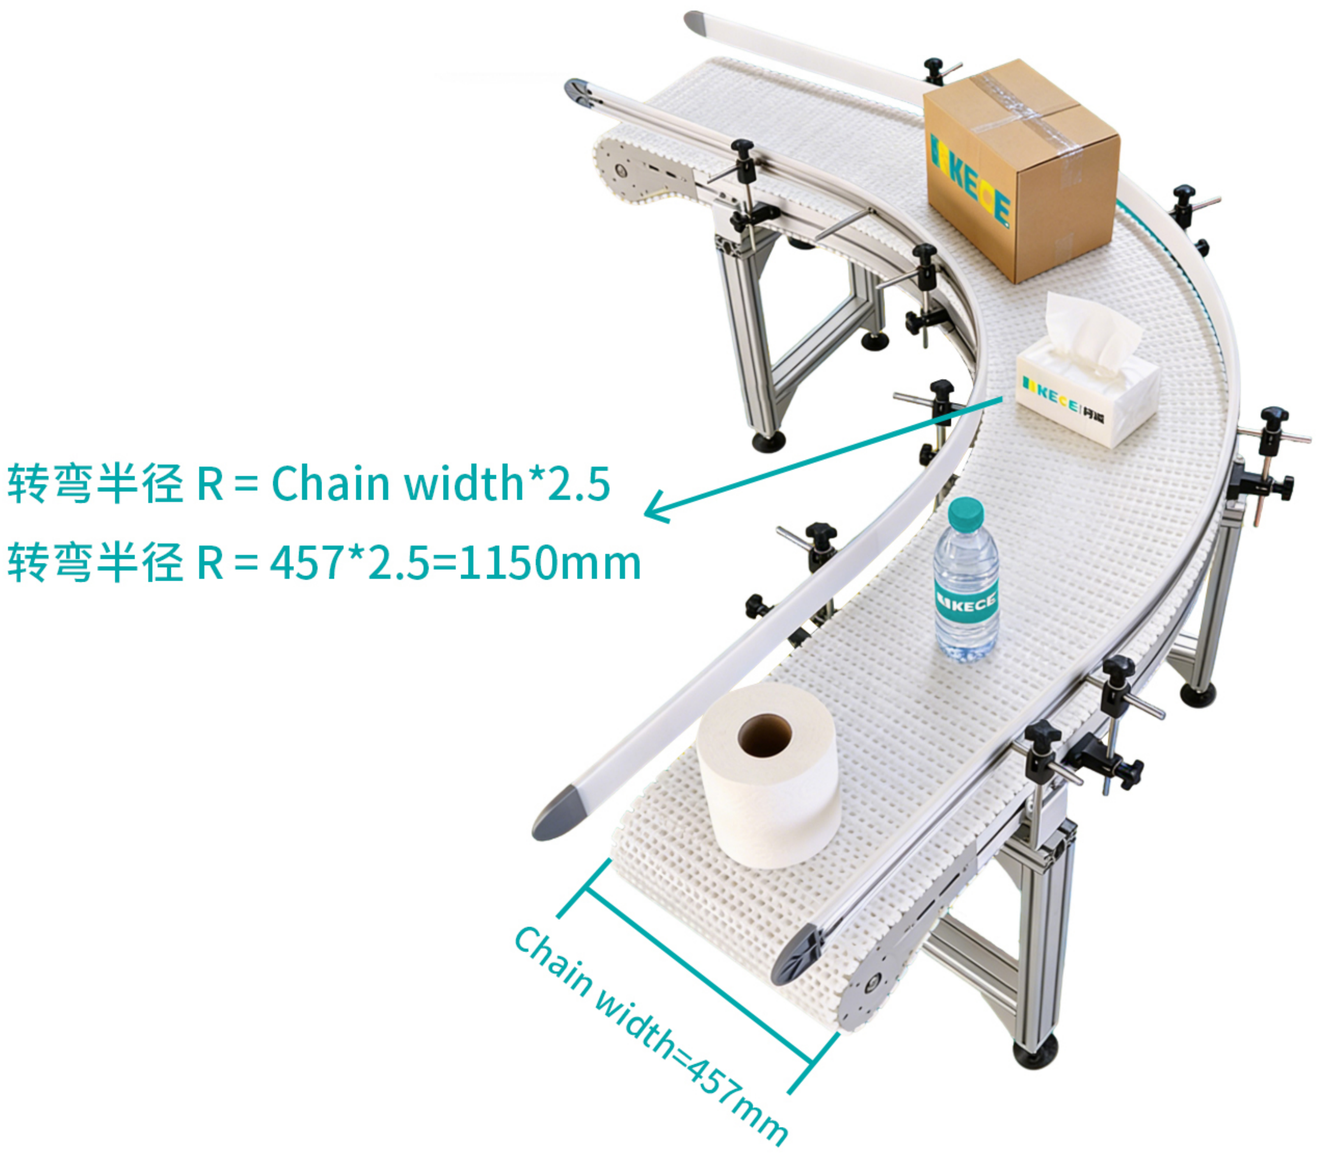

- 模块化设计 安装灵活
  Modular design and flexible installation
- 维护简便 成本更低
  Easy maintenance and lower cost
- 易清洁 好保养 使用寿命长
  Easy to clean, good maintenance, long service life
- 平滑转向输送
  Smooth steering conveyor

技术规范
technical specifications

模块化的1280标准网带机系统使得轻松创建生产线成为可能。您可以选择配置，包括基本布局和更高级的布局。高效的生产线布局让您有机会优化生产流程，有一系列不同的输送模块将您的产品从一个层次提升到另一个层次。

The modular 1280 standard mesh belt conveyor system makes it possible to easily create production lines. You can choose configurations, including basic layout and more advanced layout. An efficient production line layout gives you the opportunity to optimize your production process, with a range of different conveyor modules that elevate your products from one level to another.

系统 System	1280 modular belt
主梁宽度：Beam width	120/137/154/202(chain width+2)
链条宽度：Chain width	118/135/152/200/300/400/500/600
链条节距：Chain pitch	25.4mm
最大输送机长度：Maximum conveyor length	18m
最大负载：Maximum weight on conveyor	200KG
输送速度：Conveyor speed	0-45m/min
水平弯头：Horizontal plain bends	30°/45°/60°/90°/180°
转弯半径：inside bend radius	chain width*2.5

轻松配置与安装

Easy configuration and installation

我们提供配套的设计支持网址，可协助您完成输送线的布局设计与组件选型。安装图纸、配件清单及操作指南齐全，确保快速部署与调试。

We provide a matching design support website to assist you in completing the layout design and component selection of the conveyor line. The installation drawings, accessory list, and operation guide are complete to ensure rapid deployment and debugging.

设计支持

design support

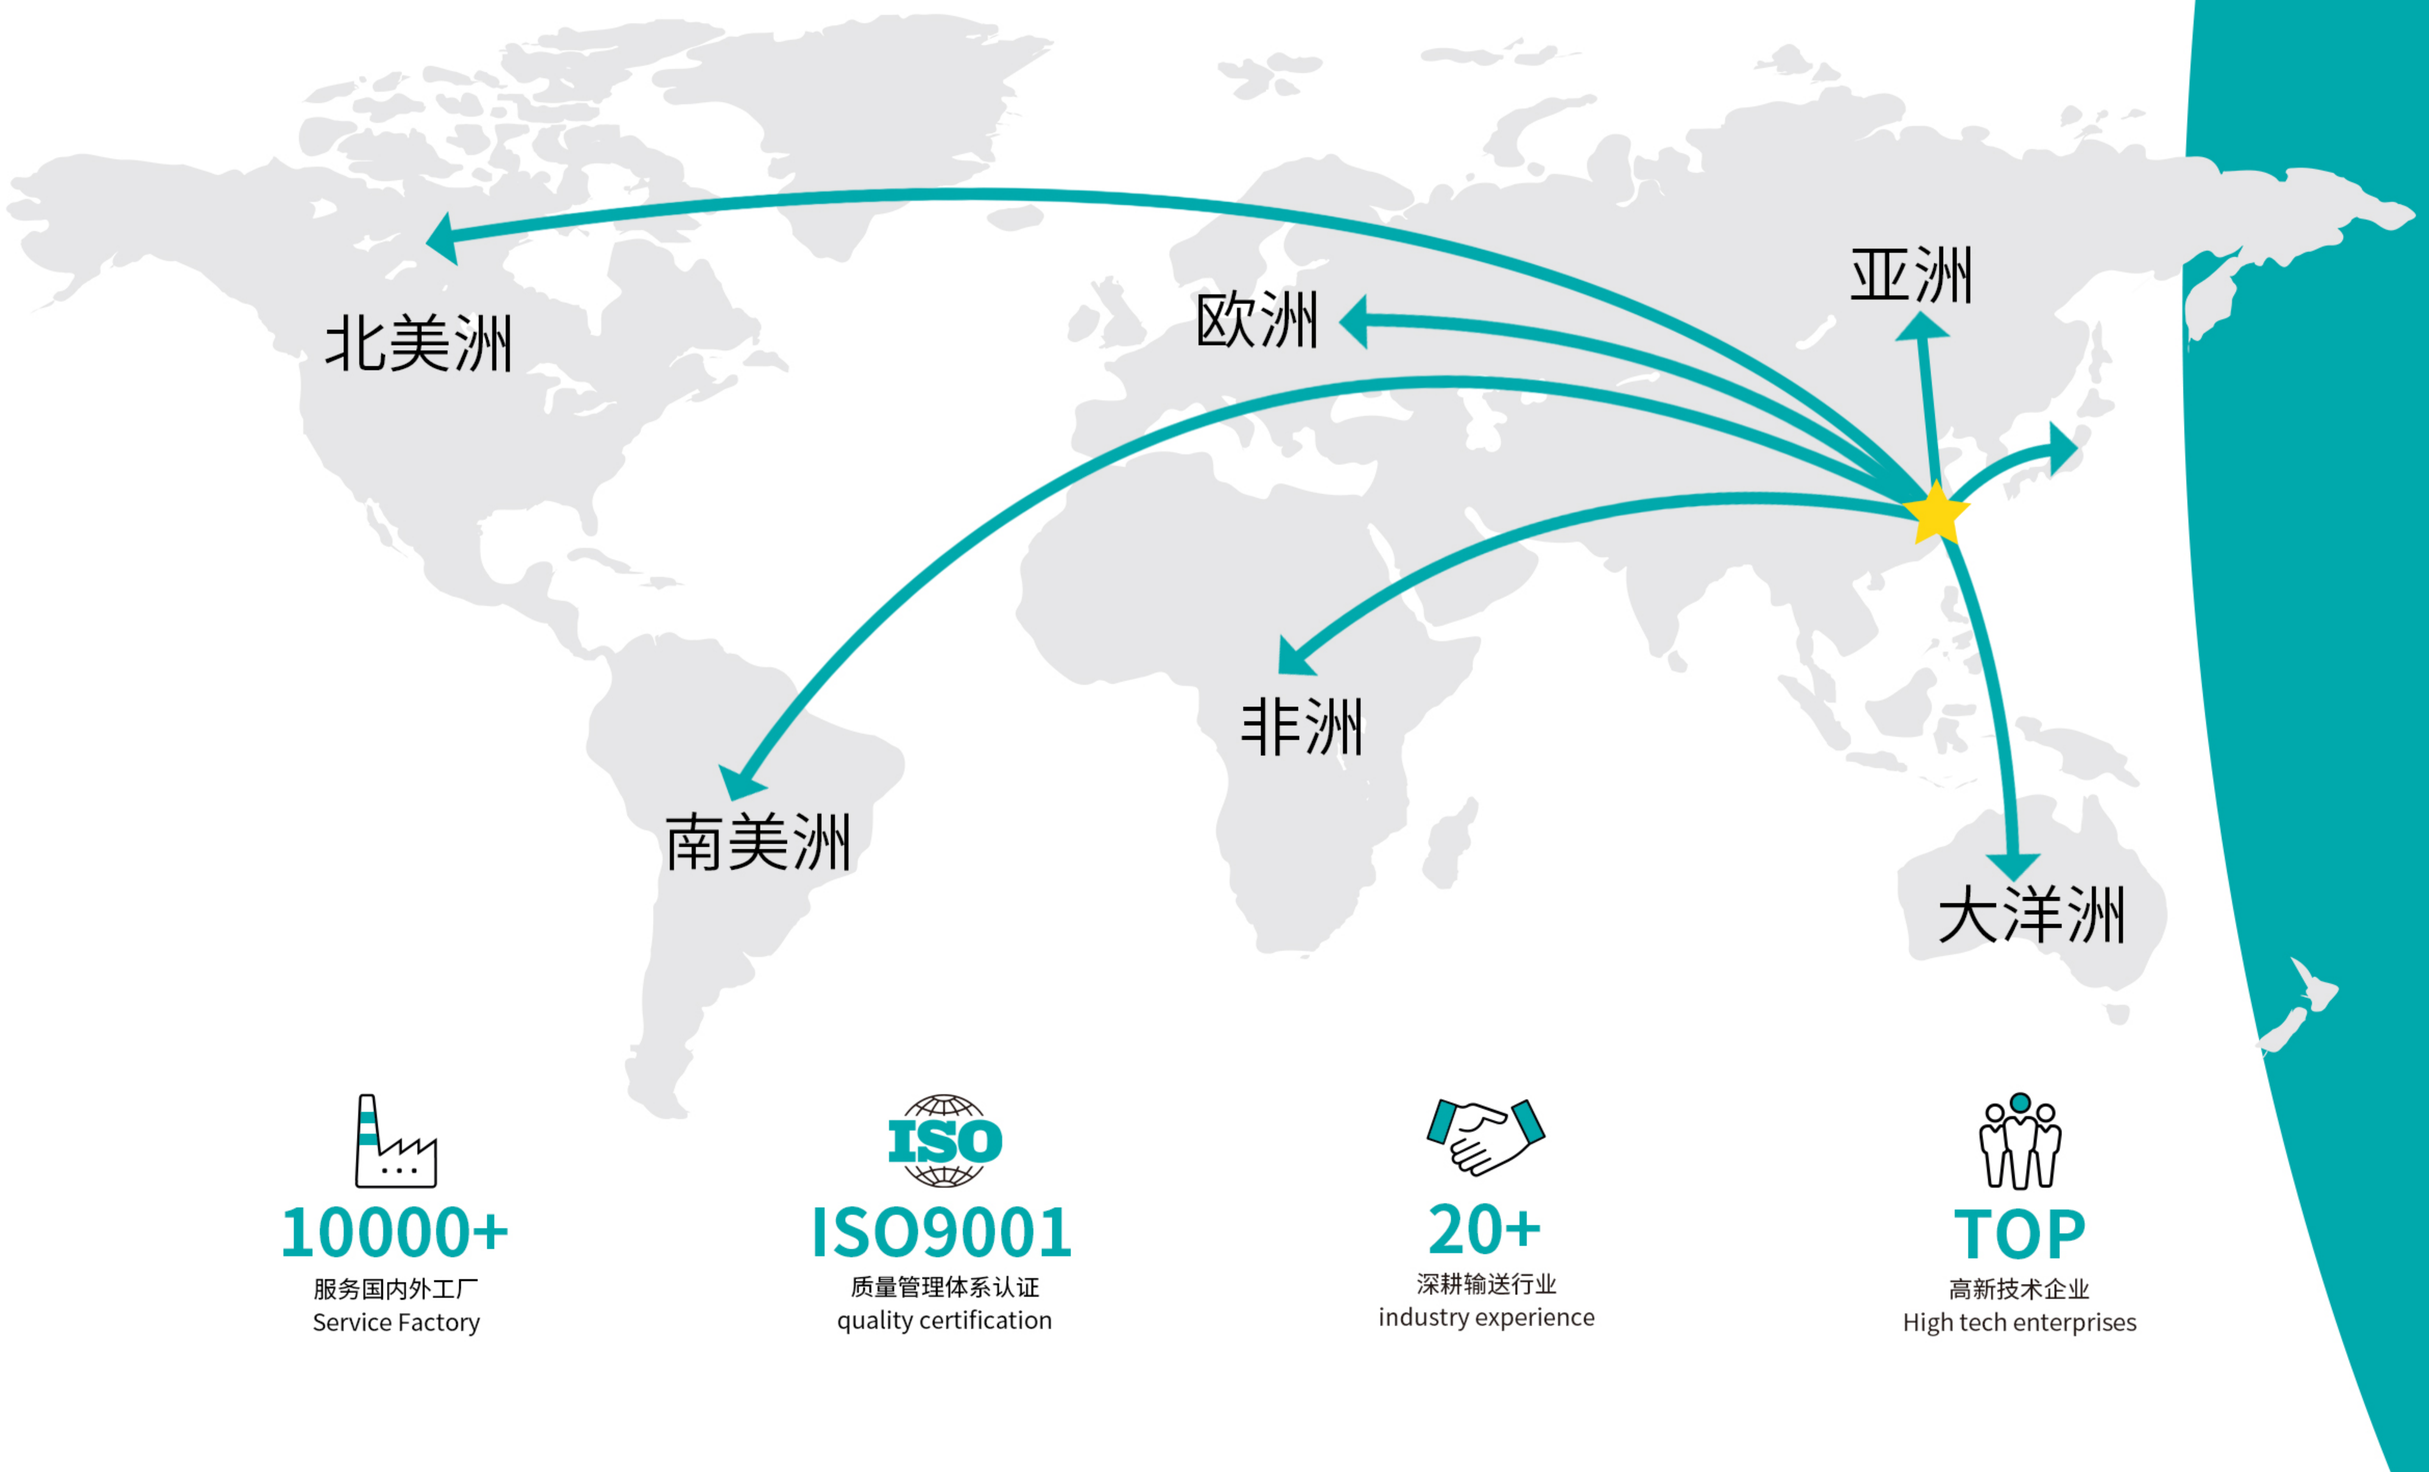

使用KECE在线选型网站，您可以轻松设计单个输送机或完整的生产线，该设计工具具有拖放功能，每个个体部件有自己的模型和尺寸，从而消除了设计错误的风险相当。订购快速且简单，可以制作直观的装配图，以便快速、无忧地安装。

Using the KECE online selection website, you can easily design individual conveyors or complete production lines. This design tool has drag and drop functionality, and each individual component has its own model and size, eliminating the risk of design errors. Ordering is fast and simple, and intuitive assembly drawings can be created for quick and worry free installation.

- 提供3D布局图与CAD文件
  Provide 3D layout drawings and CAD files
- 支持输送模拟与节拍分析
  Support transportation simulation and rhythm analysis
- 快速生成物料清单（BOM）
  Quickly generate a Bill of Materials (BOM)
- 可选配安装指导与培训服务
  Optional installation guidance and training services

关于我们

About Us

10000+
服务国内外工厂
Service Factory

ISO9001
质量管理体系认证
quality certification

20+
深耕输送行业
industry experience

TOP
高新技术企业
High tech enterprises

我们是一家专注于工业自动化输送系统研发与制造企业，为客户提供可靠、高效、智能的输送解决方案。

We are a company specializing in the research, development, and manufacturing of industrial automation conveying systems, providing customers with reliable, efficient, and intelligent conveying solutions.

安徽柯诚智能装备有限公司是以下领域的领导者

Anhui Kecheng Intelligent Equipment Co., Ltd. is a leader in the following fields

- 单个输送机配件
  Single conveyor accessory
- 交钥匙的输送机解决方案
  Turnkey Conveyor Solution
- 标准化模块化系统的运输解决方案
  Transportation solution for standardized modular systems
